8	Stylesheets: Mobile optimization	2h	2h	Caio, Eduarda	

ORCWALL

ID	Description	Result	Notes	
1	Database	100%	problem with image storage	
2	HTML and structure building	100%	no notes to add	
3	Stylesheets: Forms, Profile and Feed	80%	Dummies don't show the aspect of the tinal post	
4	Stylesheets and structure of layout	80%	There weren't any mockups we could follow, may not be user friendly	
5	Feed, Profile and Forms stylesheets, web	100%	lack of comitment to the mockups previously done	
6	Registration and login	100%	no notes to add	
7	README.md file with all the information needed to run the system	100%	no notes to add	
8	Stylesheets: Mobile optimization	80%	There weren't any mockups we could follow, may not be user friendly	

ORCWALL

ID	Description	Effort estimated	In Charge	
1	Fix errors from last sprint	4h	All team	
2	Twitter API:	2h	Samuel, João Francisco Ziga	
3	Structure: add necessary content	3h	All team	
4	Stylesheets: new features	2h	João	

#1 Sprint: 4th week

ORCWALL

1. Lack of information and directions, resulting in a loss of time trying to decide what to do

2. Storing and showing images is still not possible

3. Doubts about the technologies chosen in the first week

4. How to fetch content from the DB to the feed.

5. Part of the team has to learn how to deal with DB and server.
